Information that can be shared with families regarding exposure with no symptoms: If student develops symptoms or tests positive, stay home and contact the school. Testing recommended 5 days following initial exposure to the positive person.

*

1. Positive case follow up moves from building to district team.
2. Reporting and responding to illness stays at school level.
3. Goal of moving towards an Internal communication spreadsheet. District health staff will work with buildings through the transition process.
4. Covid reporting form will be updated to only reflect positive case reporting.
5. CDC/OHA/ODE- no longer require quarantine for exposure regardless of vaccination status.
6. Notifications will continue to be sent to positive cases cohort groups.
7. Update the outgoing voice and email messages
