Horns	horns - horns	
Armor		

You've reached the end of Level 2 Traits.
Save this and keep track of new traits you discover in future levels!

Questions:

1. How does how horns are inherited seem different than arms, legs, and wings? Hint: think about what allele is dominant.

2. Armor is inherited differently than all other traits you've observed so far. Explain the pattern you see. Hint: think about dominant and recessive.
