CHAPTER 4

Career

In this chapter you will learn about the 2 careers I want the most and why.

Actor

Why I want this job

I think this career would be really fun because Acting is a huge hobby of mine and would love to improve on it. I would want to either be in movies, TV shows, or plays. If I get this job I would really want to play as a fun character like a disney character, or maybe even a superhero! As an actor I would want to make as many people laugh and smile as I possibly could. Being an actor would also pay well too, I could afford a house, car, food, and all the basic life essentials.

At my elementary school we had school plays every year and that's when I decided I wanted to act. The first play I was ever in I was a flying monkey in the wizard of oz, the second year I was

Peter Pan in the play Peter pan and the most recent play I was in I was Daddy Warbucks in the play Annie. From That point on I knew I wanted to be an actor.

Cartoonist

Being a cartoonist would be super fun! I have always loved drawing especially drawing cartoons. I have drawn cartoons since I was very little. When I was around 7 years old I was obsessed with drawing robots and Pokemon. With any and all free time I had I was drawing. That's why I would want to be a cartoonist making art and animating it would be super fun. It would be a dream of mine to see the characters I made on TV or in movie.

The drawings above are all ones that I have drawn in my free time at home or at school. I like all of them but some are better than others.
