School

Parent(s): A request for an Assistive Technology Evaluation has been submitted for your child and we would like to have some information from you. Please take a few minutes and fill out this form so that we can better understand what your child might benefit from at school. If you aren't sure about a question, you can just write N/A. Either fill out the form on your computer and email it back to us, or print it and fill it out. You can send it back through email or by mailing it to the district office. After the evaluation, I will email you with the recommendations that I have. Thank you so much.
