Sora: https://soraapp.com/home
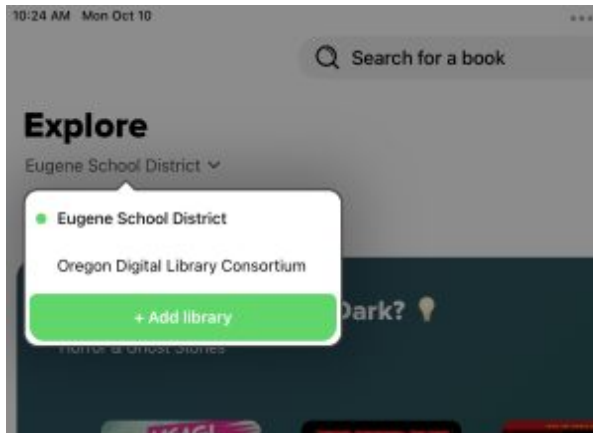

Our district supports **SORA**. It is a collection of free and purchased ebooks & audiobooks from the Sora district collection and also the Eugene Public Library. There are limited titles and copies, just like when you try to check out a physical book. The collection is growing and specific requests can be made. Students can check out eBooks and audio books on their **iPads** or their **MacBooks**. They can even check out books on their **personal** devices.

Students do not need a library card to access these books through the Sora app on their school iPads, personal devices or on their MacBooks!

On a school iPad, find the **Sora** app and sign into **Eugene School District** and use the student's 4J user name and password. Tap on the binoculars icon to search for a book. If your book is there, tap on **borrow**. You will see audiobooks and eBooks. For an eBook, you will have font choices and colors. (**NOTE**: you cannot use accessibility features on your iPad/Phone to have the eBook text read to you)

Important: On an **iPad**, you may already have access to both libraries. Check both lists to find a book.

If you **don't** have both libraries, you can link the Sora collection to the Eugene Public Library collection. See video

MacBooks and Sora: Go to the Sora site: https://soraapp.com/home

Locate **Eugene School District** and sign in with your 4J user name and password. Watch this introductory video by Amy Page VIDEO

NOTE: We encourage students with attention or reading challenges to read along on a hard copy of the book, while listening to an audio book. This can improve reading skills and comprehension.
