

## **Elevator Speech**

My group PSA is going to be about teamwork. I will make this PSA along with Molly B and Maddie W. In our PSA we will inform people about how to work as a team and how it affects your lifestyle. I will include mostly videos, pictures and text. At the end of our PSA we will have a call to action.

Our PSA will be targeted towards middle school and high school students mostly, but could impact anyone. By watching my PSA people will learn how to work as a group and how that can make many tasks easier and more enjoyable. People should care about this topic because working in groups and as a team can not only help you get things done but can also build stronger bonds with the people you work along side with.
