MCCORNACK ELEMENTARY SCHOOL

FEBRUARY 27, 2017

BECKY CASADO

Congratulations, Oregon Readers!

OBOB Champs, Oregon Readers

The 5th grade OBOB team, Oregon Readers, worked hard to win the OBOB schoolwide competition last Friday. They will go on to represent McCornack at the regional competition on March 18th at North Eugene High School. Thank you, to Miss Kate for an awesome job of coaching. Way to go, Nicolette, William, Brooklyn, J'Bionna, and Tiarie. We are so proud of you.

World Heroes Project

Fifth graders have been working very hard on their World Hero Reports & speech cards. They have also created a Google Slideshow to represent their world hero. We are excited to begin sharing the presentations this week.

Last week we created a schedule and students know what day they are to present. Our goal is to hear 5-6 speeches per day. Students will have an opportunity to practice their presentation with a partner at school, however, they will also need to

practice at home. I will be sharing important speaking tips with students, and they will have a scoring guide to refer to as they practice.

“Honk” Update

Miss Olsen will be handing out a new rehearsal schedule beginning this week. Students are reminded to keep a copy at home or in their binders for parents to refer to. I will also post a copy of the schedule in our classroom for students to check each day.

Mixtures and Solution Science Unit

Our class will begin the second Foss Science Unit this week. Students will be completing investigations, making scientific observations and recording data in their science notebooks. They will be separating mixtures, developing models, observing concentrated solutions as well as learning about saturated solutions. We are excited to begin this new chemistry unit.
