

After Test Assignment

Rather than jump immediately into Ch. 11, we'll take one day to work on a cumulative AP Practice Test 3. Because it is lengthy, you should start on it tonight.

I suspect you will need to look back in your book (or your notes) for many problems. This will take time but will be valuable to refresh your mind from some items in the past. This initial look back will make the final review we do in March all the more effective which is why I think we should take an extra day to do it.

To help with time, I listed the sections you may want to look at if you can't answer a question straight away (back side)

You will turn in all problems in on Monday.

AP Practice Test 3 (pp. 701-706)

for tonight : do AP3.1 through AP3.10
and, if motivated, get
started AP.3.33
