

**Algebra 2B -Assignments
for the Week of April 20-24, 2019
During State Testing**

Monday April 22

Worksheet 6242 You will need the compound interest formula on your reference sheet for the first part of question #4 and the *continuous compound formula* from class today. You will be able to check your solutions on the class website on Tuesday's post.

All of the assignments for Tuesday, Wednesday, and Thursday are review assignments for the Chapter 6 test which will be Monday, April 29th. Add all of these to your normal HW recording sheet, in order.

Tuesday April 23

6.....134, 136c, 138, 140, 141a-d, AND

solve the following 3 by 3 System of Equations:

$$4x - 2y + 3z = 1$$

$$x + 3y - 4z = -7$$

$$3x + y + 2z = 5$$

Solutions to this assignment will be available on the class website on Wednesday.

Wed April 24

Worksheet 6250 You will need the compound interest formula on your reference sheet for the first part of the question. Solutions will be available on Thursday on the class website.

Thursday April 25

6.....149a, 150a, 151-153, 156, 158ab

Solutions will be available on the class website on Thursday

Friday – Start Chapter 7

You will have a chance to ask questions on the review assignments for the week today, however the Chapter 6 test will be on Monday, April 29th.

Don't forget you will turn in all assignments from Ch. 6 before the test on Monday. (11 assignments)
