

After Test Assignment

Personal Project Checks in AP Statistics

1. Go to “My AP” at the College Board Website. You will have some upcoming tasks which will require you to have access to AP Statistics in “My AP”. In addition, you will need to join in order to sign up to take the AP Statistics exam. The registration date is coming up in the next few weeks.

To join AP Statistics, go to the College Board website and go to “My AP”.

For period 1 AP Statistics, use the join code: **GW2ZAR**

For period 5 AP Statistics, use the join code: **34V2PQ**

2. Your first on-line assessment will be a ***Personal Progress Check for Unit 1***. Unit 1 for AP Statistics corresponds to Ch. 1 and 2 in our textbook. Personal Progress Checks will give you some feedback on how you are doing on the 9 units in the College Board AP Statistics curriculum. We will review the entire curriculum in March. However, I see the *Personal Project Checks* as a way to review during the course which I feel will be very valuable for your success later.

Look for

Unit 1 Progress Check: MCQ Part A

Work on it over the next week and complete it by **Oct. 6th at 11:45 pm**. For this first check, a grade will be assigned in the “Practice” category of your grade in this class. Future checks may be counted as LCQ’s or as quizzes. Let me know if there are issues with the system way in advance of this deadline.

Starting tonight is a good idea since there is no other textbook assignment until tomorrow. Take advantage of the feedback you get!
