Hello,

I work as Assistant Activities Director at a small care facility in North Eugene. I was hoping to contact someone in the music department (if available), to see if we might negotiate a time for the students to come out and perform for the residents here. I'm always looking for ways to improve the quality of life for these people and I hope that even if you do not have the means to accomplish this that you may still have any contacts that I could reach that may be able to. Frankly due to our own state budget cuts, we need volunteers more than ever and would greatly appreciate you, if you could, help us to expand our network of performers or companions. All help is greatly appreciated!

Cody Jay Kayser
