As in past years, the City of Eugene is providing the SPLASH stormwater education curriculum to schools this year along with grant funding related to it.

"SPLASH! K-8" is curriculum for each grade level from kindergarten through 8th grade. "Salmon and the Ecosystem" continues the curriculum in grades 5-12 with an emphasis on salmon and its role in our area's ecosystem, economy and culture.

Attached is an overview of the program. It includes contact information for new or replacement materials. All materials are free to teachers in Eugene.

Participating schools will receive a grant of \$1,000. Schools are encouraged to use at least some of the money for the purpose of science/stormwater education. If you choose to participate, you would need to provide us with the building account number that you plan to spend from. We will transfer the grant funds mid-year from Instruction to that account at your school.

Let us know if your school plans to participate in SPLASH by replying to this message with the following information:

- The name of your school
- A brief summary of how you plan to use the SPLASH curriculum
- Names of participating teachers
- Number of students who will be involved in the SPLASH curriculum and their grade levels
- Account number you will spend from

Send this information, including the account number, by Wed., Oct. 31 to me.
