

NOTES

- All survey information provided by:  
Balshizer & Hubbard  
100 W 13th Avenue  
Eugene, OR 97401  
P: 541.686.8478  
F: 541.345.5303  
Dated: 09.13.2013
- Verify exact locations and routing of existing underground utilities prior to starting excavation. Repair any damage to existing pipes, utilities or related facilities at Contractor's expense in a manner approved by Owner's Representative.
- Install new utilities so that rim elevations are flush with finish grades at pavement, lawn and plant beds. Adjust rim elevations of existing utilities accordingly.
- All accessible components including, but not limited to signs, ramps, tactile warning, markings, etc. shall conform to all Oregon State Standards for parking and access for the disabled. Obtain Landscape Architect's approval prior to installing any related work.
- In addition to improvements shown, repair all areas disturbed or damaged by construction impacts to the condition that existed prior to construction.
- At pavement locations where concrete paving joints are not dimensioned, joints are to be spaced equal.
- Coordinate irrigation sleeve installation with irrigation contractor and utility work prior to site work. See Sheet L400 Irrigation Main Line and Tree Irrigation Plan for irrigation sleeve placement.
