

Oxivir Five 16 Disinfectant

Product info:

This product is already diluted per manufacturer instructions. As diluted, no personal protective equipment is required. However, if you prefer or if you experience irritation, wash your hands and request gloves from your custodial staff.

Directions:

- This product is intended **only to be used by district staff. Students are not to use the product.**
- Spray product on surface and allow product to remain for **five (5) minutes** to fully disinfect.
- After wait time has passed, wipe clean and allow to air dry.
- Bottle spray pattern should not be a solid stream nor a fine mist, but in between those settings. See graphic below:

If you have questions, please contact your head custodian.
