Hello Elementary Team

What an incredible job you have all done kicking off this school year. We have record high attendance and are hearing wonderful things for families. We know these last 5 days haven't been without their challenges, but it is clear all of your hard work is paying off.

The slow roll out schedule brings its own unique challenges. We've heard many questions about next week's schedule and wanted to ensure everyone received the same information. Linked below is an explanation of next week's schedule. We know this is coming late on a Friday, so please use this to help inform your time next week, but know that if your plans during your teaching blocks are a little different, that's okay.

[Link to video explanation of the schedule for Sept 28-Oct 2](#)

Things to know about next week:

- There are three schedules next week! Monday/Tuesday has one start & end time, Wednesday is shorter, and Thursday/Friday add more time to students' day. Please pay special attention to your start and end times as we continue to roll out our schedule.
- This Wednesday kicks off our shortened live time with students. Every Wednesday we will be live with students for 65 minutes. We'll have 30 minutes of SEL, a 5 minute break, and 30 minutes of small group time. The video references small group time, but please remember right now we're using this time for technology skills. This week we are NOT providing asynchronous core content (green time) lessons for students, but in the weeks to come, students will do their core content on their own on Wednesdays.
- Applied learning time starts on Monday. Students complete 45-55 minutes of math practice (Dreambox is recommended) and independent reading on their own every day.

From here on out, we will send a video and slides with more details about the upcoming week by Wednesday afternoon.

Thank you for all you are doing! You are appreciated - enjoy your weekend.

Brooke
