Hello teachers,

Allan and I have talked this over, and Title is available to help support your EasyCBM testing this fall. Please let me know if you would like us to help you with your one on one assessments and/or group assessments.

We are planning to do it during the "blue time," or whenever works for you. We'd like to start the 2nd week of school, maybe Sept. 29 or 30.

One on one, 1 minute timings - Week 2 of school (start Tuesday, Sept. 29?): We will probably need to have you or a co-host (me?) send kids to breakout rooms with an adult. We could help manage the main class while you assess, or you can manage the main class while we "flood" your classroom and do the testing in breakout rooms.

Math, Reading Comp, Vocab - Week 3-4 of school: Hopefully you can do these as a whole group on Zoom. We can provide support for that too. With Kinders and 1st graders, and some older kids, they will need to have the questions read aloud to them, because *the read-aloud feature in EasyCBM is not compatible with iPads*. Allan and I think you could read each question aloud on Zoom, ask for a raised hand when they are done, and then read the next question aloud. That should work for many kids, but not all. If you need help to do some of these one on one, or in small groups, please let me know.

I'm ordering paper copies of all the one on one measures for the assessors. Please let me know ASAP if you do NOT want paper assessor copies.

Thanks,
Jenny
