Stacy,

We met with all of the Head Custodians last week to review what is the same and what is changing, in terms of COVID protocols for this school year. I'll summarize those changes to disinfecting requirements below:

- 1) Day Custodians (regardless of grade level) no longer have the "on the hour" disinfecting requirements for restrooms and other high traffic touch points.
- 2) Evening Custodians at Elementary Schools - nightly electrostatic disinfecting of all common touch-points (same as last year), except individual student desks/chairs do not need to be sprayed nightly. Small group instruction tables in the back of classrooms or in hallways, as well as resource rooms (CLC's, Title Rooms, etc.) DO NEED to be sprayed nightly.
- 3) Evening Custodians at Middle Schools/High Schools - nightly electrostatic disinfecting nightly does include individual student desks/chairs, weight rooms, etc.
- 4) Cafeteria tables will be sanitized with the Food Services provided sanitizer between meal periods. The cafeteria tables need to be disinfected nightly with the electrostatic sprayers and the Bioesque (but not between meal services).

I believe those are the most significant changes in terms of what surfaces (and how often) need to be disinfected during this school-year, as of this point in time.

-Trevor

Good Morning,

I was speaking with Gary last night about our required disinfecting routine, and we both realized that it hadn't really been discussed since school is back in session.

Are we using the same requirements as we did during LIPI and Hybrid last spring?

Does Dayshift still need to do all restrooms hourly?

In the evening are we spraying the desks, chairs and touch points in each classroom and all touch points in general use areas?

I just want to make sure I am on the same page with everyone task wise, since we are short on bodies and have a limited amount of time to get a massive amount done at every building, some more than others.

I remembered you had asked why it took me so long to electrostatic the whole Kelly/Yg building last week.

I have been using it in the cafeteria, Library, Lockers in the hall, the bleachers in the gym .....every space that is being used for student instruction and all touch points.

Am I doing too much?

Did I miss the email about this?

Thanks so much
