Dena James has the wrong email listed under our TOSA update. Her email is actually [james\\_de@4j.lane.edu](mailto:james_de@4j.lane.edu). So sorry for the confusion. Thank you for understanding!

Warmest Regards,

Rebecca Boyd, M.Ed., NBCT

**Subject:** [cert\_elem] Elementary Teacher TOSA update

Hello Elementary Teachers!

There are a few things that we wanted to share with you as you are getting ready for your first weeks of school.

We have also created a list for you to use when looking for contact information in regards to curriculum needs. We hope this list will be a resource as you prepare for your student's

arrival. We wish you a lovely start to the new year.

Warmest Regards,  
Instructional TOSAs  
SDS Team

### Math

- LearnZillion student workbooks are arriving at your school next week.
- Student workbooks will arrive in grade level boxes (color coded) and will need to be split among grade-level teams.
- There is a Unit 0 for each grade level that does not have a workbook. This may be a good resource to start the year as you develop your math routines and growth mindset.
- Dreambox is ready for you and your students to use. The goal is 5 lessons per week.
- If you are missing manipulative kits or Number Talks teacher books, (or have extras) please ask your principal to make a note in the inventory spreadsheet and the TOSA team will supply materials to the extent possible, starting with the schools from whom we have the inventory information.

### Science

- Connect with your principal to let them know what kits you have and how many your grade level currently has.
- Once your principal has filled out the inventory spreadsheet, you can request a science kit by filling out a [Science Kit Request Form](#).
- Teachers will keep their science kits and not return them to the warehouse due to space shortage. There will be more information coming about this process.
- If you need Live Material Cards please email Jamie Tait (STEM TOSA)
- You can access your Foss digital science curriculum through an app on Clever called ThinkLink. More information to come. The digital teacher guides are updated and have some great new resources.
- Mystery Science subscription has been renewed and can be accessed through the app on Clever. Mystery Science is an on-the-go supplemental science curriculum. [Click here](#) to get logged in.

### ELA

- Journeys Interactive Notebooks, and Maravillas consumable units, will arrive at schools soon for those that ordered them.
- District subscriptions have been renewed for Lalilo, Newsela, and Reading A-Z (Raz-Plus). Options for short introductory professional development coming soon.
- If you need materials (or have extras) for Journeys, Maravillas, Being a Writer, Heggarty (K-2), Handwriting Without Tears (K-1) please ask your principal to make a note in the inventory spreadsheet and the TOSA team will supply materials to the extent possible, starting with the schools from whom we have the inventory information.
- Due to books not being returned from families during CDL, and this being the last year of using our current Journeys materials, we are not able to purchase additional anthologies, leveled readers, decodables, etc. We are hoping teachers and students are able to access texts on

ipads and use physical textbooks for students who struggle to use their ipads. The goal is for each teacher to have enough books for half of their class.
