Good afternoon,

We received notification today in our meeting with Lane County Public Health that quarantine periods have been reduced from the current 14 days to 10 days. Effective immediately all unvaccinated students and staff who are identified as close contacts will be required to quarantine for 10 days instead of 14. Unvaccinated students/staff who are identified as close contacts within the household will be required to quarantine 10+10 instead of the 10+14. We will be updating all contact tracing sheets in your school folders to reflect this change. Additionally, students who are currently in quarantine from a school source will have their information reviewed and may have their quarantine dates amended. If their return to school date changes Synergy dates will be updated, it will be documented on the master

spreadsheet and your contact tracing sheet, and families will be notified. If we need your assistance on any of your students we will contact you. Please check with Heather or me if you have questions.

Thanks,
dawn
