Hello science teachers,

Hope you're well! I wanted to follow up on science kit information you already received from your building administrator.

Science Kit updates:

- Starting this fall, each classroom teacher will have their full year of science curriculum (3 modules).
- Science kits will no longer be returned and restocked at the district level.
- Storage and maintenance of science kits will be managed at the building level.
- Th district will support restocking of consumables and live materials (more details to come)

Next steps:

- If you taught a science kit this winter and/or spring you will need to inventory those kits.
- **Please submit a [Restocking Form](#) for each kit by Friday, June 3rd.** We will send your order through district mail and ask that you place those items back in the kit by Friday, June 17th.

Please remember...

- Care for these kits in the same way as if you were passing them along to another teacher. These kits are checked out to grade-level teams, not individual teachers.
- Keep items in the boxes that they belong in. There is a list on the front of each box, and the inventory list is organized by box as well (this will help at the end of each use).
- Inventory each kit after teaching it, and if needed fill out a [Restocking Form](#).

--

Thank you,

Jamie Tait
