Hello,

As most of you already know, Classified staff have had a recent change in our 403b requirements, vendor options and district contribution. Classified staff no longer have a mandatory contribution, we now can choose from any vendor listed on the website, and the district has increased their contribution from 1.75% to 2.5%. My goal in the next few weeks is to get out to every school and building to assist classified staff in enrolling in a 403b. I've created a spreadsheet divided up by region/department. Please use the link below, select your region, and put your school/department name next to one of the time/date options that will work for you. I will come on the day selected and be available in the staff room for questions and answers for classified staff.

After you've selected the time/date, please print the attachment, fill in the time/date, and put it in your staff room. I will do the rest!
