Good afternoon Admin teams, I first want to thank each of you for working to develop your SCIP. I know this is a different way of planning for improved outcomes in many ways. Please understand that it will be a step-by-step process that will lead us in a direction that can, and I believe will, support our district in improved out comes for our under-served student populations as well as all students attending a school in our district.

Your work on the Leadership Plans can be put on pause for now. The team working on this new leadership structure have not come to any final agreements so we will look at a new timeline for completing Leadership Plans. This delay will allow for an increased amount of time for completing SCIP first drafts.

As you review your plan please consider if you have included/shared your schools baseline data. This is the data that compelled you to select your chosen Focal Group. This baseline data is important to add so you can clearly identify growth in your chosen student Focal Group. Please be clear on what your practice/activities will be to support this growth.

Your new due date, for this ongoing SCIP Plan development will be on May 26th by 5pm.

Just a reminder that these are working documents and new information may change your action steps for creating improved out comes.
