### We Have Results!

When the community works together, we can do great things. The Electronics Recycling Competition is a strong example of schools making positive change by prioritizing waste reduction.

Removing electronics (e-waste) from our waste stream is one of the absolute BEST ways to contribute to Earth stewardship. We are fortunate to have NextStep in our community, and to have schools (like yours!) that care for our environment.

Overall 13,269 pounds were collected this year! Congratulations to this year's winners:  
(NOTE: Other participating schools are listed below as well.)
