Animation

Group Project Proposal

For the group project animation, Matthew and I will do a stop motion animation on the whiteboard. This animation will be about a fight between an eraser and a marker. The marker will make many creations to stop the eraser while the eraser will have to erase them to get to the marker and stop it. We might even do voice over's. I hope you will approve this since this is a really good idea. I hope that our animation will turn out to be amazing.
