## Company Answers

1. My company is called “Water Zone” which makes the cleanest and tastiest water ever known! It was founded at July 30<sup>th</sup> 2015 by Diego Gonzalez who believes that clean water was everything. How did all of this happen? Diego says that one day he went to California and had a cup of water and... well, you know, he got sick for 3 months and found out a liver eating parasite was inside of him from the unclean water. The doctors put him in surgery to take the parasite out. After that experience, Diego knew what he had to do... He will have to found a company that had the cleanest water ever known, that is what he had done.
2. “Water Zone” sells the cleanest and tastiest water ever known, but that’s not all they make. “Water Zone” also makes flavored water, sparkling water, and sparkling flavored water. All of them are full of flavor. The service is very nice and always on task. Selling the cleanest water ever known makes us very unique.
3. Our employees are very nice, if not, they’re fired! The building is 16 stories high and is very wide! The furniture is nice and fancy, but not too fancy. In the building is a

large fish tank that has the “Water Zone” logo inside of it. The employees work really nicely with each other. Some employees design new machines to make the water cleaner/or tastier, others work in office answering phone calls, while others drive trucks to get the water in the market.

4. My targeted audience is anyone. Anyone would love “Water Zone” if they tried it. People who want to be really healthy and would like to drink clean and tasty drinks will buy “Water Zone.”
  
5. The tag line for “Water Zone” is: “taste matters.”
