Evening Everyone,

I hope everyone is still trying to enjoy the rest of their summer and staying healthy. With the official decision by the district to be teaching and learning ONLINE until Dec.7th, I have been asked to survey my school to see what types of technology professional development people may need to jump start this new school year. I know many of us attended (or presented) numerous tech PD's in the spring, but we would really like to know what YOU need now!!! This could be anything from a review of things from the spring (Seesaw) to more advanced items such as Seesaw tools, screen casting, video recording, zoom setup, or even something that we have never covered that you think would be very useful to you and others.

We want to know what YOU want and need! I am on a tech team right now that is in the beginning stages of figuring out what types of technology PD's teachers and staff want/need. We would like to not only be able to provide you choices, but also make those choices useful. I have created a VERY SHORT (4 questions) survey to find out more information from you. If you would please take 5 min. and fill it out, then I can take those results back to the team.

Survey Link: <https://www.surveymonkey.com/r/BW37NH8>

We all know that this is a crazy time and everything will be different, but if myself and the tech team can make using technology easier, then we would like to help.
