PSA Elevator Speech

Our Topic is on respecting school bathrooms and classrooms. We think that this will show the school what happens inside bathrooms and classrooms. It will make them care for things like vandalism and misuse of property. It will also give them a message of what they can do to improve, and/or work on fixing these things. We hope to achieve a goal of having at least 50% Of bathrooms more clean than they are today. We will work by not just telling people in the PSA but by informing them and showing them what really happens in classrooms and in bathrooms. We also won't just act out what we do will also show them real life vandalism we have found in the bathrooms.
