Kiana King's Biopic

Bio

In this chapter, you will learn about my family, my schools, and my pets.

Section 1

Family

This is my family!

This picture is of my sister Ava, my dad Ryan, my mom Eileen, and I after a dance performance. Ava is 6 years old and goes to Gilham Elementary school in Kindergarten. My mom is a dance teacher and dance studio owner. She is very well known in the dance community. I look up to her so much. My dad currently works at a rock climbing gym but used to work at a Courtsports and as a cook for many different restaurants. He is super smart and intelligent and I hope to be like him when I am older.

This is my dance family, Kings Krew. I like to consider this as my second family because of the bond between me and all of the company members. My mom runs this company and I hope someday I will too.

I love rock climbing. It is such a fun and exciting way to challenge myself.

This is me climbing one of the walls at my rock climbing gym, Crux.

This is me climbing the Skinner Butte columns in Eugene. During the summer, I was in a summer camp at Crux and one of the activities was walking to the columns and climbing. It was so much fun and I really want to do it again!

Career

In this chapter, you will learn about some of the careers that I am hoping to have when I am an adult: dance, a school teacher, and a therapist.

Section 1

Dance

Ever since I was in preschool, I've known that I would be a dance teacher. But now I want to be more than just a dance teacher. I want to judge dance competitions, go on tour, own my own dance studio/company, and teach dance conventions.

Section 2

School Teacher

Another job that I would love to have is a school teacher. I haven't decided what age I would enjoy teaching but I know that if I work hard to become a teacher someday, I can do it.

Section 3

Therapist

Recently, I've been thinking about becoming a therapist when I am an adult. I think it would be a very educational job for me because of the physical and mental injuries I've been through. Then I could help myself and other people going through the same situation as me. I love helping and supporting people so I think this would be the right career for me.
