

Personal Data: Tell your teacher about yourself. You may wish to include things like how many siblings you have, people you live with, sports you enjoy, favorite subjects in school, hobbies, and other topics you like. This is the first paper you will turn in to your teacher. Be sure to use your best writing skills. You can use the lines below to list your ideas, but write your full response on a separate piece of paper.

Your Math History: Do you remember your Kindergarten teacher? How about 1st grade? Take a moment to recall as much as you can about each grade you have had so far. Use what you remember to fill in the tables. You may be asked to add to your tables and graph at the end of this year.

Use a scale from 1 (lowest) to 10 (highest) on the rating part of the tables.

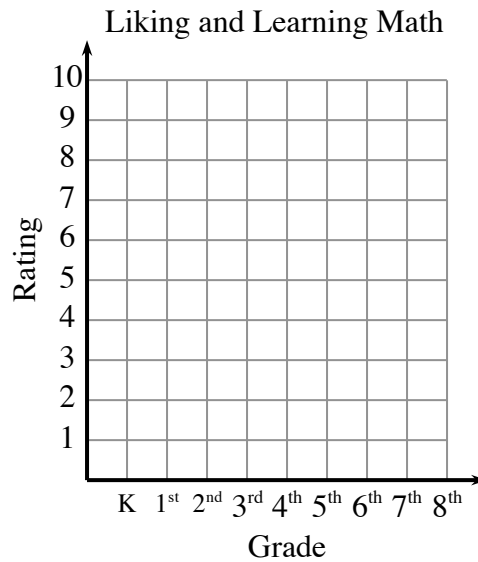

How much did you **like** math each year?

Grade	Rating
K	
1 st	
2 nd	
3 rd	

How much math did you **learn** each year?

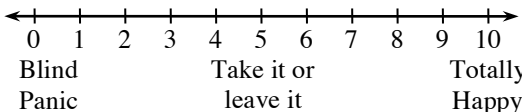

Grade	Rating
K	
1 st	
2 nd	
3 rd	

Graph the information from your tables. Be sure to include labels so it is clear which line shows **like** and which shows **learning**.

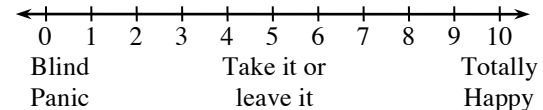

Use an “X” and place it on each number line to show your answer to each question.

How do you feel about learning math this year?

How do you feel about learning in teams?

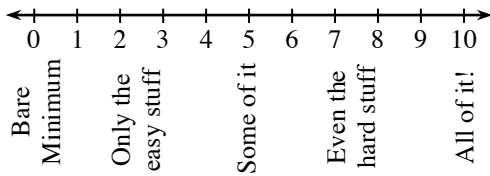

For the Adult: Please write a note to your student’s math teacher about your student’s best academic **qualities** and **strengths**. If you would like, also include non-academic qualities and strengths.

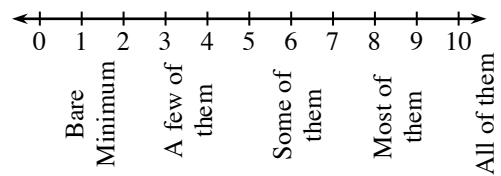

For the Student: Please think about your academic strengths as you complete the following tasks.

Use an “X” and place it on each number line to show your answer to each question.

How much of the math in this course do you expect yourself to **learn** this year?

How many homework assignments do you hope to complete this year?

Make three lists of what you will do to meet your learning goals this year:

In class I will...

- 1.
- 2.
- 3.
- 4.
- 5.
- 6.
- 7.

At school I will...

- 1.
- 2.
- 3.
- 4.
- 5.
- 6.
- 7.

At home I will...

- 1.
- 2.
- 3.
- 4.
- 5.
- 6.
- 7.
