

Grade Rational

I Think that i deserve a “A+” because i as a student i have probably done a lot more senior projects than a actual senior which shows that the media pros team trusts me and that i have gotten all of my work done, completed, and finished the work well. Also i was on the Navaience team which shows that Gwen trusts me like every other senior on the team. This year was fun and i don’t have the second and third trimester so i hope to end on a good grade. Thanks for taking this under consideration.
