

Chapter 14 –Macro Measurement

Five goals of Macro (147)
Draw out and Explain Circular Flow Model (148)
Leakages and Injections (150)
C+I+G+NX (151)
GDP GNP (152)
Limitations of Measurements (155)
Nominal and Real (153)

Chapter 15 -Development

Define economics growth and development (158)
HDI (160)
GDI (163)
GEM (164)
Lorenz and Gini (165-66)

Chapter 16 –Aggregate Demand

Aggregate Demand (169-71)
Define AD (169)
Draw AD (171)
Changes in AD (171-75) *Income, Interest Rates, Wealth, Expectations*
Changes in Investment: *Interest Rates, Level of National Income, Tech. Change, Expectations, Exports and Imports*
Gov policies impact AD (175-77) *Fiscal, Monetary*

Chapter 17 –Aggregate Supply

Define Short Run Aggregate Supply (179)
Draw SRAS (179)
Shifts in SRAS (180)
Keynesian LRAS (181-82)
Neo Classical LRAS (181)
Draw Keynesian and Neo-classical LRAS
Supply Side Policies (183-184)
Interventionist Policies (184-185)

Chapter 18 –Macroeconomic Equilibrium

Keynesian LRAS below full employment (187)
Keynesian LRAS nearing full employment (188)
Keynesian LRAS nearing full employment (188)
Neo-classical LRAS and AD when there is a shift in the SRAS (189-90)
Change in Keynesian LRAS with an AD curve (191)
Change in Neo-Classical LRAS with an AD curve (192)

Chapter 19 –Inflation

“Good” vs. “Bad” Deflation? (203)
Cost push inflation (AD and SRAS) (206)
Demand pull inflation (AD and SRAS) (207)
Fiscal Solutions (208-10)
Monetary Solutions (208-10)

Chapter 20 –(Un)Employment

ADL and ASL equilibrium (222)
Demand Deficient Unemployment with ADL and ASL (222)
Keynesian LRAS with Declining Unemployment (222)
Frictional Unemployment (224)
Real Wage Unemployment (22)
Seasonal Unemployment (225)
Definition of Unemployment (216)
Structural Unemployment (225-26)
Interventionist Solutions (226)
Market Oriented Solutions (227)
Effectiveness (227-28)

Chapter 22- Wealth Distribution

Direct and Indirect Taxes (p. 239)

Progressive Taxes (p. 240)

Regressive & Proportional Taxes (p. 241)

Transfer Payments (p. 242)
