

Myth Busters

For each myth or superstition, write an "if---then" hypothesis and design an experiment to test your hypothesis.

Myth #1: An apple a day keeps the doctor away.

Hypothesis:	
Independent variable:	
Dependent variable:	
Constants:	
Control:	

Myth #2: Eating chocolate causes zits.

Hypothesis:	
Independent variable:	
Dependent variable:	
Constants:	
Control:	

Myth #3: Shaving your legs make the hair grow back more densely.

Hypothesis:	
Independent variable:	
Dependent variable:	
Constants:	
Control:	

Myth #4: Drinking coffee will stunt a child's growth.

Hypothesis:	
Independent variable:	
Dependent variable:	
Constants:	
Control:
