

Please get out
"what to know -"
ch. 7 Test
+ "IB Curric Guide - cells"

IB:

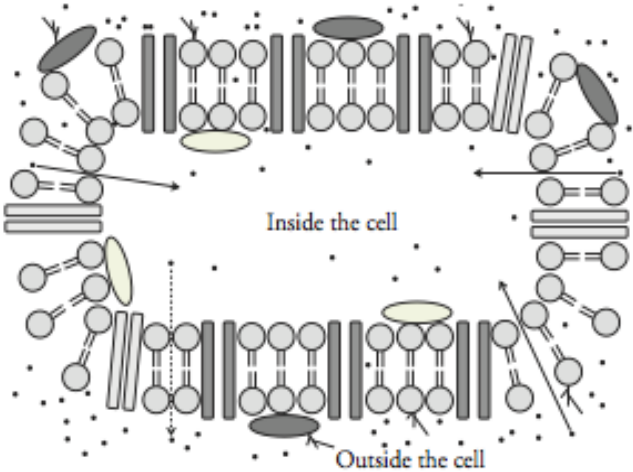

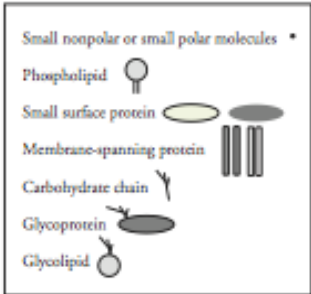

plasma membrane

= cell membrane

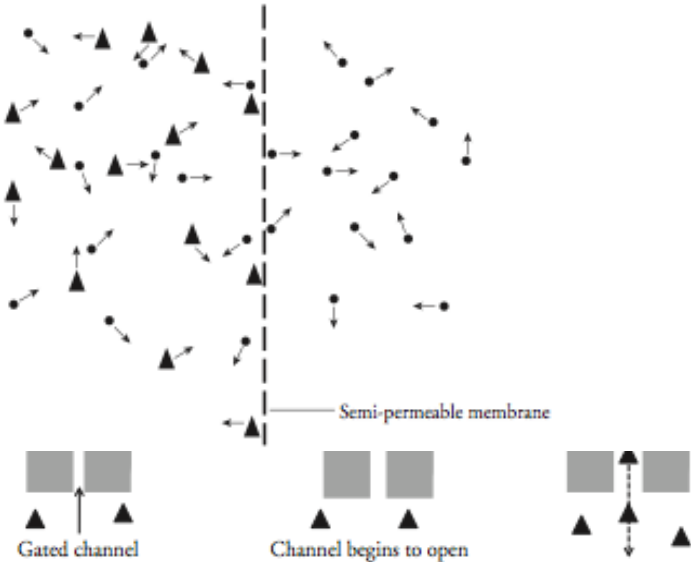

- phospholipids

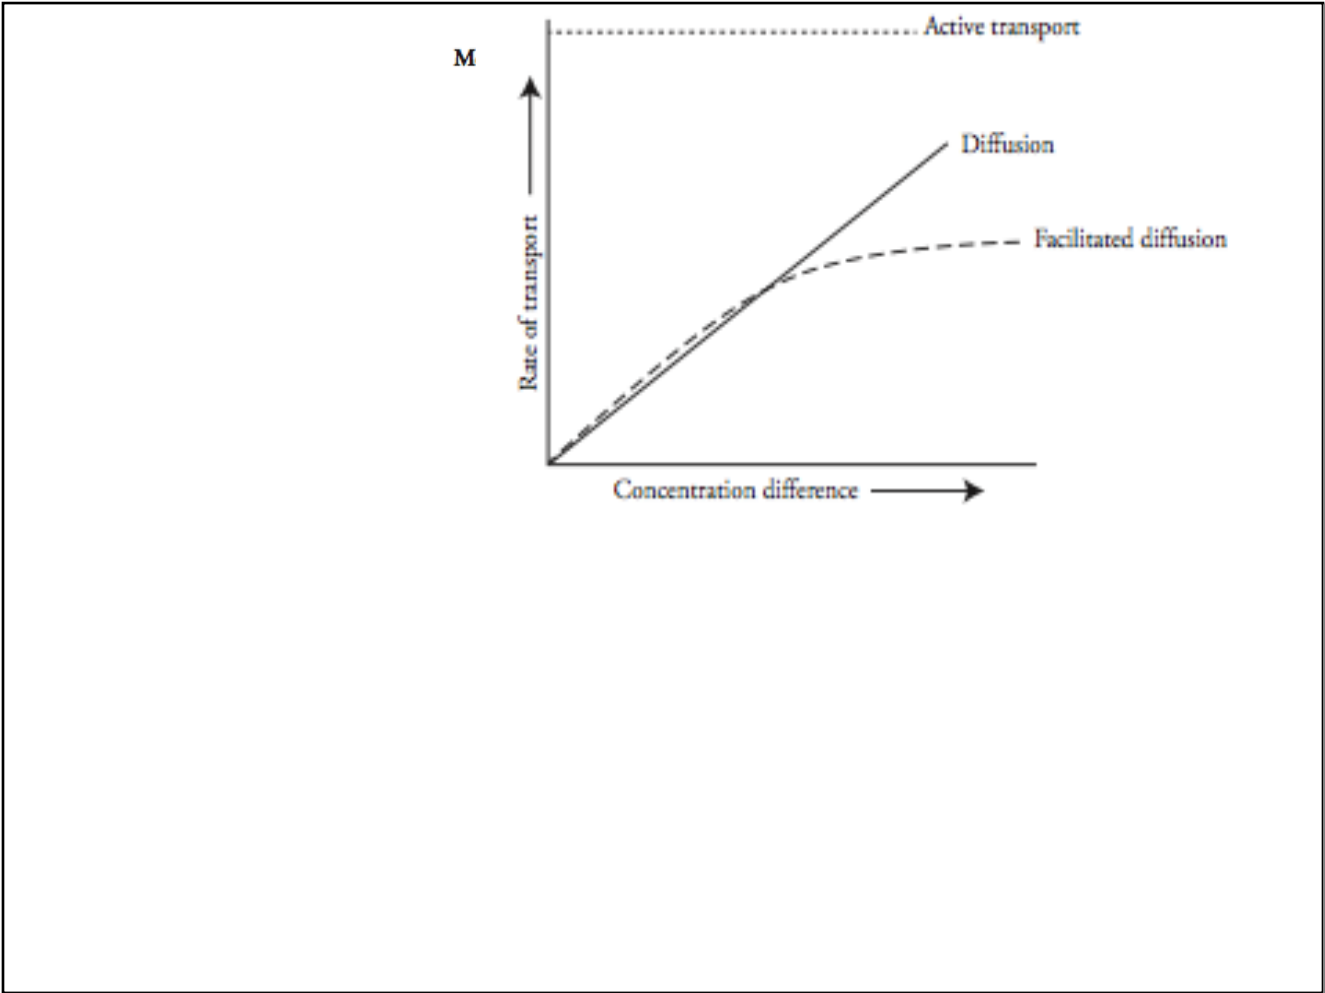

Model 2 – The Selectively Permeable Cell Membrane

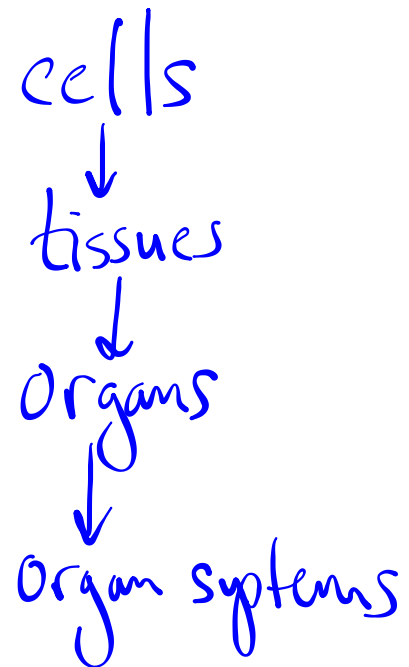

Model 1 – Simple Diffusion

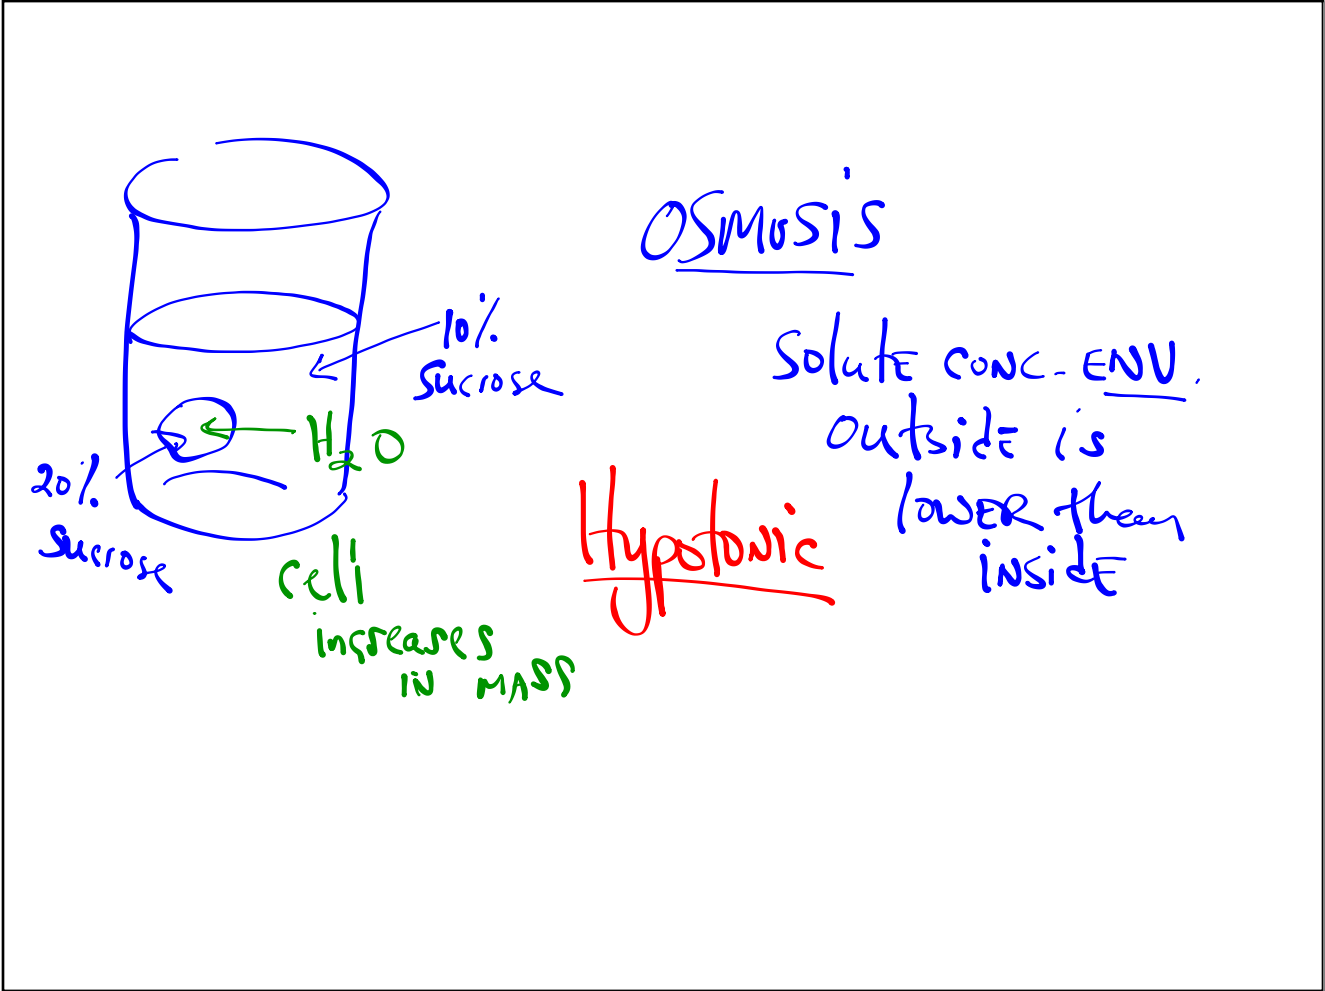

Cell
Specialization

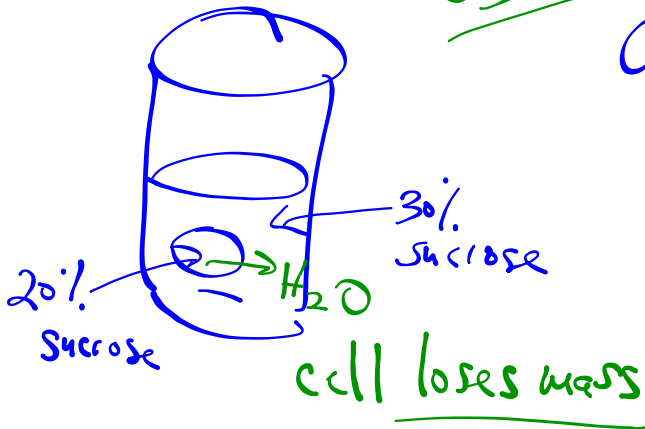

Van Leeuwenhoek - first to
Hooke - "cells" *see microorganisms*

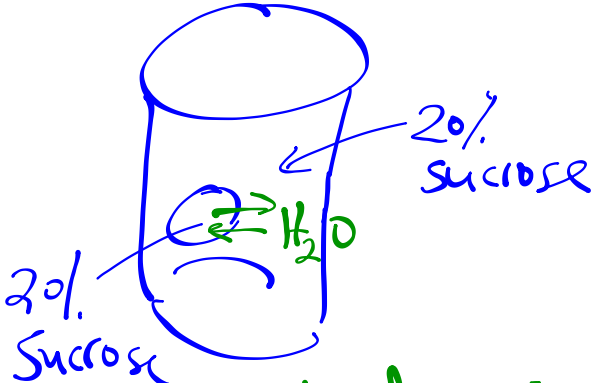

Osmosis

Conc. of solute
in ENV. is
higher than
inside

hypertonic

ISOTONIC

No change in MRSS
