

**Ecology terms for justification of status of 6 species:**

- Species
- Population
- Community
- Ecosystem
- Biotic factor
- Abiotic factor
- Habitat
- Niche
- Predation
- Symbiosis
- Mutualism
- Parasitism
- Commensalism
- Trophic level
- Autotroph
- Heterotroph
- Photosynthesis
- Producer
- Consumer
- Herbivore
- Carnivore
- Omnivore
- Carrying capacity
- Limiting nutrient
- Density-dependent limiting factor
- Density-independent limiting factor
