

Why School?

1. Life is hard. ←
2. Life becomes easier if you have tools to help get you through.
3. School is a way to get, learn about and practice using these tools – for free!
4. Science is a very powerful tool. **
5. If you learn to use science and the other tools school gives you, you have a better shot at a better life.
6. If you have a better life, you can help the ones you love have a better life, too, because....

**more about this later.
