

# GarageBand Directions for the iPad Mini

1. Open up GarageBand.

2. On the “Welcome to GarageBand” page, click CONTINUE.

3. On the Instruments page, choose Audio Recorder by tapping on the MICROPHONE icon.

4. Click on the WRENCH icon.

5. Turn off the Count-In option by tapping the button. It should slide from blue to white.

6. Turn off the metronome – it is the triangle icon at the top of the screen and it should be white for OFF, not blue for ON.

7. Choose DRY as the voice effect.

8. Click the RED BUTTON to start recording.

9. Click the square STOP button to stop recording.

10. Click the left facing triangle to REWIND which moves your recording back to the beginning.

11. Click on the right facing triangle which is the PLAY button to hear your recording.

12. If you would like to delete your track and try again, click on the icon that looks like a bundle of 5 squares and rectangles. That will show you the track you just recorded.

13. Tap twice on the blue audio recording that you want to delete. A hidden menu appears.

14. Click DELETE and that erases your track.

15. Record again by clicking on the red button.

16. If you want to save your recording, click MY SONGS which will take you to a new page.

17. Now you need to name your recording. Tap on the words “My Song,” delete those words and type your first and last name.

18. If you want to start a new recording, click the PLUS button.
