Xtra Credit: -Personal/Partner Make-over  
-Read Poster  
-Mr. Schiff's "Fun Page"  
-Create, Save & Post

## Comic Makeover

Students use their familiarity with Illustrator tools they learned in the Name Game assignment (including the selection and direct selection tools, and specialized applications using text, layers, gradients, symbols, clipping masks, and shape manipulation tools) to modify a cartoon character, superhero, or comic character that they will use as a basis for creating a fantasy makeover. For this assignment, students must demonstrate knowledge of each of the listed tools and applications in one design that is theme based/tells a story. The outcome should not appear to be a random showing, but instead a deliberate and well thought out composition showing their ability to use the tools.
