

NAME:

HOMEWORK DUE: FRIDAY, SEPT. 19th

Illumination Ideas - 10 points

An illumination in text is where the writing is supplemented by the addition of decoration, such as an adornment of initials, added borders and small illustrations. Using the first letter of your first name you will create an illumination. Embellish, decorate and add details and color that express your style and interests. The final product will be done in colored pencil and outlined in black sharpie. It will also have a border. First, on this paper, develop 4 different ideas for your illumination. Please use a capital letter. Color is only required for your final product (not on this first step of the project).
