

NAME: _____

Self- Assessment: Homework - DUE TUESDAY, 4/11

Looking through your work for Trimester 1 and 2, reflect on your experience and efforts as a learner.

In your body of work in LA/SS Core look for evidence of growth and provide an example of where you've improved/learned. What led to this growth/improvement?

When you look through your file folder what is your reaction?
(Avoid fixed mindset thinking like "I'm smart!" or "I'm dumb!" - judgements wont inform your learning moving forward)

What does this reaction tell you about your learning experience in this class?

--

What do you find easy? How do you handle easy assignments? Are you learning with these assignments? Explain.

What do you find difficult? How do you handle difficult assignments? Are you learning with these assignments? Explain.

Is learning important to you? In what areas of your educational journey do you feel like you could improve?

Set two personal learning goals for this last trimester of your 7th grade year in Language Arts and Social Studies. Why are these goals important to you and what will you do to work towards these goals? (Avoid goals related to grades and GPA - it's not about measuring a performance but making the learning process more effective.)

1
Why?
2
Why?

Please share with me two things that teachers need to know in order to understand what it's truly like being a middle school student in today's world.

Draw me a doodle!
