

GLOBALIZATION

"Globalization means we have to re-examine some of our ideas, and look at ideas from other countries, from other cultures, and open ourselves to them. And that's not comfortable for the average person." – Herbie Hancock

"Globalization, as defined by rich people like us, is a very nice thing... you are talking about the Internet, you are talking about cell phones, you are talking about computers. This doesn't affect two-thirds of the people of the world." – J. Carter

"Globalization is not a monolithic force but an evolving set of consequences – some good, some bad and some unintended. It is the new reality." – Larson
