Elevator speech: World Hunger

My PSA is going to be about world hunger. My main point of writing this is to inform the audience about why people should help end world hunger by using facts, pictures, and more. I want to give examples of different way people can help and also negative effects if they do not. I also want to call for action for people to help.

I want to direct my PSA towards all ages because I think no matter what age you are you can help. I want people to learn about world hunger and how it is affecting lives by watching my PSA. This is an important topic because it causes so many deaths and if we stop it we can save millions of lives.
