Try Out Achieve3000° Today!

THE ACHIEVE3000 TRY SITE features a variety of demo logins so you can experience our differentiated solutions from the perspectives of a teacher, parent, administrator, and students at different grade and reading levels. This password will allow you to access all of the differentiated solutions for grades 2-12 that are part of the Achieve3000 platform, including *PRO* (language arts, science, and social studies), *BOOST* (targeted intervention and special education, *ACCESS* (ELL), and *ESPAÑOL* (Spanish literacy).

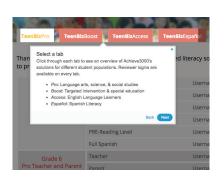

Visit the Achieve3000 Try Site at **achieve3000.com/try** and enter the credentials to the right to access the demo logins and begin your review today!

Follow the on-screen instructions for a self-guided tour!

This tour will help you choose the **username** and **password** for the Achieve3000 solution and user type you'd like to review. We recommend beginning by choosing a **teacher login**, as you will be able to review both the **student and teacher experience** from this perspective as well as have access to a series of self-guided tours in the Teacher Edition.

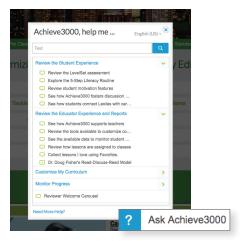

Once logged in with a teacher review account, you will be guided through an overview of the Achieve3000 platform, followed by the option of how you'd like to continue your review.

You can choose the **Quick Review** (a 10-to 15-minute guided tour) or the **Extended Review** (a 20- to 25-minute guided tour), or **explore on your own**. Exit the guided review at any time to explore a feature in more depth or switch to the option to explore on your own.

	Both the Quick Review and the Extended Review will begin with the same tour.			
	Begin You	r Review		
	Quick Review 10- to 15-minute guided tour	Extended Review 20- to 25-minute guided tour		
	I'd like to explor	e on my own		

If you choose to **explore on your own**, you will still have access to all of the same guided tours through the **Ask Achieve3000 menu** at the bottom-right of your screen.

Once you've completed your review of the Teacher Edition, we recommend revisiting the Try Site to experience any of Achieve3000's differentiated solutions from the perspectives of different types of students, a parent, and an administrator.
