

Objective: To understand camouflage as  
(#1) an adaptive survival strategy.

### Blending Butterflies Post-simulation Questions

→ Answer in INB

- 1) Were luck and location important factors in survival? Explain why or why not.
- 2) What is an advantage & disadvantage of camouflage as a survival strategy?
- 3) Does natural selection act upon phenotypes or genotypes?
- 4) Explain how the allele frequencies of this butterfly population would change in the next generation. Predict what the butterflies would look like in the next generation.
