

Charlotte Bailey's Biopic

Chapter 1

Bio

Hello! My name is Charlotte and welcome to my biopic! In this chapter you will learn about my family and friends. You'll also learn about where I go to school. I hope you enjoy my biopic!

Section 1

Family

This is my family. I live with my mom, dad, and my younger sister, Penelope. My mom is a lot like me. She's really organized and plans lots of our vacations. My dad is an architect and makes the best french toast EVER!

This photo is from a few years ago. I'm the one on the right.

My family is huge! I have a lot of relatives in Eugene.

My Sister

My sister has a lot of names. Her full name is Penelope, but we call her Pippi. For sports, her teammates call her Pip. She's one year and ten months younger than me and is in 4th grade. Some siblings fight a lot, but we normally get along perfectly. Pippi is a daredevil. Her favorite sport is arial silks. She dangles from the ceiling and does tricks on a silk rope thing. She's also an amazing baker. Her cookie dough is the best!

People always used to ask if we were twins!

Chocolate chip cookie dough! Yum!
I love it when Pippi makes cookies.

(My sister is the one with the blonde hair)

Section 3

School

I went to Willagillespie Elementary for six years. Now I'm in middle school. I was going to go to Monroe, but all of my friends were going to Cal Young so my parents surprised me by doing the lottery to get me in! In three years I will be going to Sheldon High school.

Cal Young Middle School (I go here now)

Willagillespie Elementary

Sheldon High School

Friends

Me and my best friend, Julia have known each other since second grade. Right now I have an awesome group of friends. This year I met Emily and Kiana.

Me and Julia at the school activity night.

This photo is from a day at lunch. I'm the one in the middle towards the top.

Chapter 2

Favorites

Everyone has their own opinions. Cake or ice cream and red or blue. The next chapter is all about my favorites. My favorite color, my favorite music, and more stuff like that.

Music

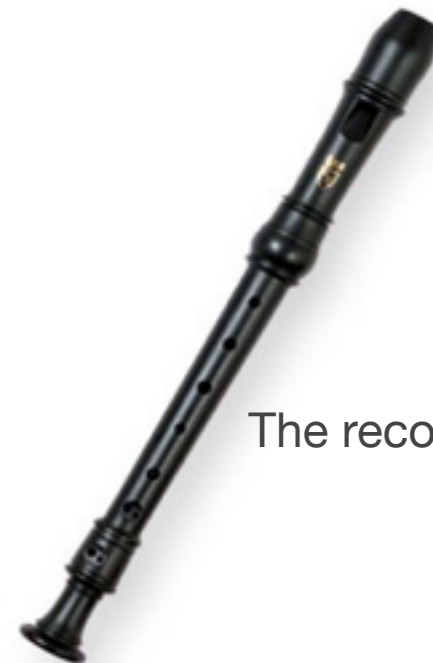

I've played a lot of instruments in my life. I'm currently playing the oboe (band) and the piano (lessons), but I also know the recorder, the ukulele, and the viola. I really like the oboe and it's fun to play a less known instrument.

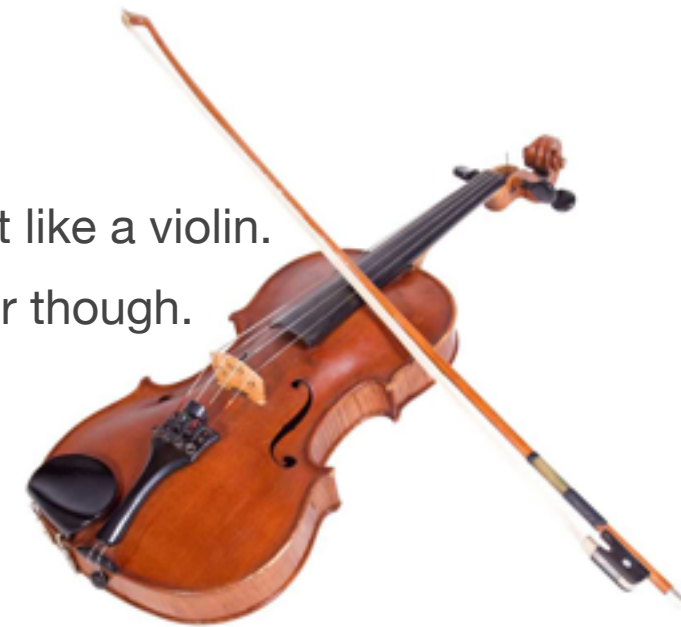

The oboe is a double reed instrument. It makes it harder to play, and it's very fragile. (the reed)

The piano!

The recorder.

The viola is a lot like a violin. It's a little bigger though.

The ukulele.

Chocolate

I LOVE chocolate. To not mention chocolate in this biopic would be an insult to life. It is by far my favorite treat. My favorite kind is dark chocolate, but I like milk and white sometimes too. Me and my mom both agree that Nutella is something magical and hot cocoa is the best drink of all time!

Food

I love bread. I don't know why, but bread is my thing. I don't like fast food very much. It doesn't make me feel good. I really like breakfast foods like waffles, bacon, french toast, and cinnamon rolls.

The Glenwood is my favorite restaurant. I always get the french toast.

Waffles!!!!!! I love them with maple butter. (it's like butter and maple syrup mixed together)

Giant pretzels are THE BEST!

Chapter 3

Hobbies

Up next.....my hobbies! In this chapter you'll learn about my favorite sports, stuff to do at home, and stuff that I like to do with my family.

Sports

I've played soccer since Kindergarten. I used to play on Kidsports and my dad would coach. But now I play on a Pelada team called Leonessa with my friend Julia. I also really like to Ice Skate. I go with my mom sometimes.

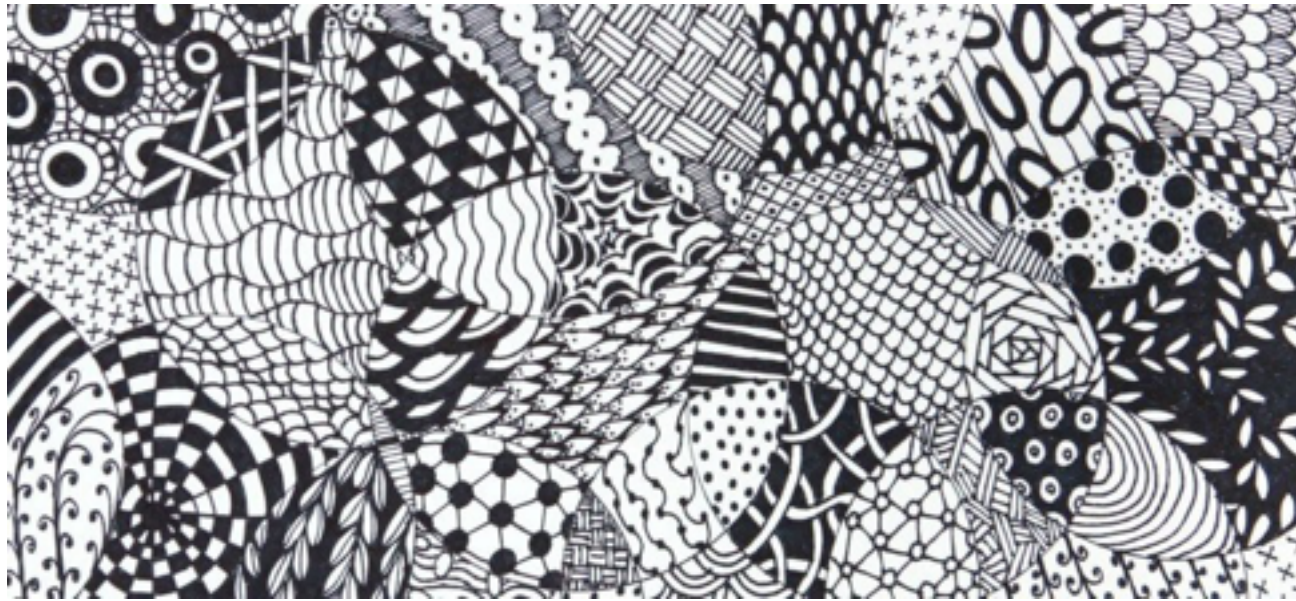

This was a year ago on my 11th birthday!

This was from when I did Kidsports

Crafts

I really like to craft. Painting, building, coloring, creating, origami, all of it. Recently I've learned how to make stuff out of duct tape and calligraphy.

This is a zentangle. They are really relaxing to draw. There's a lot of different kinds.

My grandma painted this one.

You can make anything out of duct tape!

My grandma takes a calligraphy class and she taught me how to do it.

Reading

I love to read. I have an entire bookshelf full of books. In my room. Some of my favorites are Harry Potter, Keeper of the Lost Cities, and A Clatter of Jars.

These are all of the Harry Potter books I have. My favorite is book 4 (The Goblet of Fire)

This is me at the library. I got so many books that day! I really liked that series.

Chapter 4

Career

I won't be a sixth grader forever. The next chapter is about my big plans for my future, including collage, jobs, and more.

Collage

Both of my parents went to the University of Oregon and I think that's where I'll go too. I've already been in most of the buildings and my family goes to women's basketball games all the time. GO DUCKS!

This is me and my sister when we were younger. We would go my grandparents house to watch the football games with our relatives.

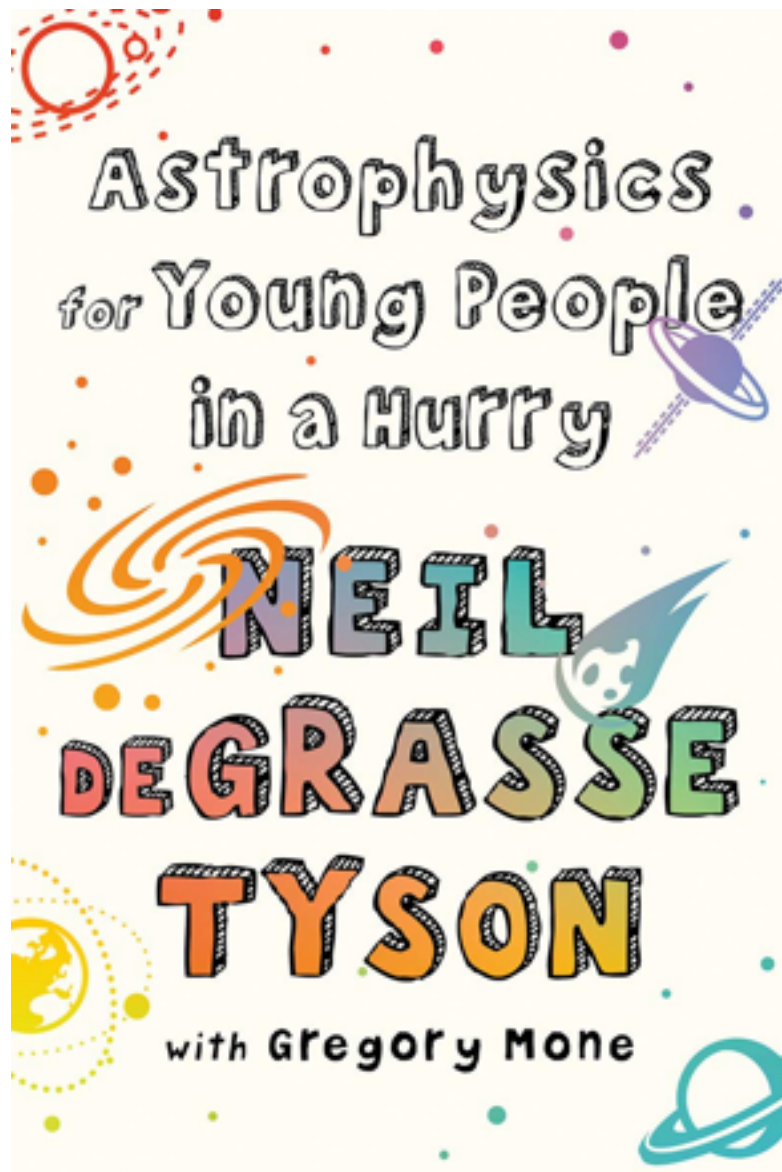

GO DUCKS!!!!!!

Job

When I grow up I think I would like to be a scientist or an interior designer. Interior design is planing how a room will be painted and decorated. My grandma studied interior design in college. I also think that being an FBI agent would be nice.

I loved this book. It's by one of my favorite scientists. (Neil deGrasse Tyson)

I could be a famous detective!... Maybe.

Big Dreams

When I'm an adult I'll get to do lots of stuff like planning trips to Hawaii or buying a three story house. I want to see my friends a lot and have a whole room for books and maybe another room for reading them.

Seriously, this would be the best house!

I love Hawaii. My favorite island is Maui. 17
