Butter Battle Lab Report

Introduction/Background

Here you are going to type the background info. This can be short, it can include fun facts, or interesting things that led to the lab.

Purpose/Hypothesis

In this lab, we are asking the question, "Do you think it will take more calories to create the butter than the calories you will get from eating the butter?" I made the hypothesis that _____.

Materials

Create a bulleted list of materials used.

Procedure

List the steps you took for the experiment.

Data/Results/Observations

Put into the document, your tables and observations, and any info from your lab

Analysis/Conclusion

Give your answers to questions posed, and you are going to see if your hypothesis is supported or disproved.
