

Name _____

As you read through the syllabus answer the following questions and fill in the following worksheet. This is your first assignment.

<p>Draw what comes to mind when you hear one of the underlined words</p>	<p>Give 2 ways the course behavioral expectations could look in our class</p>
<p>What's your favorite area of science? Or what sounds most interesting to you?</p>	
<p>In the grading policies section of the syllabus, which category is worth the most?</p> <p>What category do you think will be the easiest to earn points in?</p> <p>What should you do if you need more time, have questions about your grade, or want to do an alternative assignment/assessment?</p>	
<p>If you know you are going to miss class, what could you do before you are absent?</p>	<p>What brought you to ECCO?</p>

Student Contract

I _____ (your name) have read and understand the expectations outlined in the syllabus for Chemistry Foundations. I understand the appropriate classroom behavior expectations. I will choose to conduct myself in manner that is reflective of the classroom expectations.

I understand and will abide by the classroom the TECH POLICY outlined in the syllabus. I know I will lose participation points and potentially, the ability to participate in labs (for my and my classmates' safety) if I do not follow the tech policy and other lab safety expectations.
